

**MICHAEL SIMS ( E )**

---

**Q. Well, Mike, must be pleased with your round today. How do you feel?**

**MICHAEL SIMS:** I played really, really well today. I had a couple of unfortunate breaks and it definitely cost me a little bit out there. I got off to a really good start, I think I was 3 under through five, 3 under through four, and things were just kind of cruising along. Birdied seven and then took an unfortunate break on nine and that seemed to slow down the momentum just a little bit.

**Q. Your walk from nine to 10, we could see a bit of, just a little bit of frustration. You could shake that off quick?**

**MICHAEL SIMS:** I mean, for me there was no frustration. I did everything that I was trying to do, that's just rub of the green, you know. It was just more about me getting into my own space. That's all I was doing is just, I was just refocusing on me there. There was no frustration. There might have been a little frustration on 17, but yeah, I was just refocusing.

**Q. If someone said to you that you would shoot a 1 under in a PGA TOUR event maybe four years ago, would you have believed them?**

**MICHAEL SIMS:** Well, first of all, I don't know if I would have ever believed I was playing in a Tour event in Bermuda, so the answer is no. And then to get greedy, I would have said I wish I would have shot two, and if I would have shot two, I would wish it was three. It is what it is.

**Q. What have these two days meant to you?**

**MICHAEL SIMS:** I mean, so much. Hats off to the Bermuda Tourism Authority for getting this event here, all the sponsors. And you've got to give it up to the guys that are just taking care of this golf course, up and around this pro shop, everybody here has just done a phenomenal job. The golf course is fantastic. We've never seen it like this, so it's playing a little bit different than we ever see it. Then all the support from the locals and everything has been, I mean, second to none. I had a nice little crowd out there following around today. It feels good. I know I'm walking straight and I'm keeping my head down, but it feels good to have everybody out there and cheering us on.

**Q. Do you think there's a chance the cut can move back to even?**

**MICHAEL SIMS:** We need more wind. If we get a bunch more wind, possibly, but I don't know.
